

Qingyi Song

Phone: (+86) 16601269101

Email: 26021733r@connect.polyu.hk

Research Interest: Neurolinguistics, Neural Processing of Voice

Education

2019.9-2023.7

Beijing Foreign Studies University (BFSU) | Beijing, China

English Language and Literature | B.A.

- GPA: 3.81/4.00
- Outstanding Graduate of Beijing (Top 5%)

2023.6-2026.7

Shanghai International Studies University (SISU) | Shanghai, China

Linguistics and Applied Linguistics | M.A.

- GPA: 3.92/4.00

2026.9-Now

The Hong Kong Polytechnic University | Hong Kong, China

Artificial Intelligence and Humanities | PhD Candidate

PUBLICATIONS & MANUSCRIPTS

Peer-Reviewed Journal Articles:

Song, Q., & Jiang, X. (2025). Temporal prediction during turn-taking. *Advances in Psychological Science*, 33(12), 2168-2181.

(First Author)

Ji, Y., Song, Q., Tan, Y., Chang, W., Zhou, X., & Jiang, X. (2026). Prosodic Cues Modulate Behavioral and Neural Signatures of Turn-end Prediction in Conversation. *Brain and Language*, 275.

(Co-first Author)

Jiang, X., Song, Q., Hu, Y., & Lu, L. (2026). Voice as relational orientation cue: neural dynamics underlying the decoding of listener-and content-oriented vocal communication. *Brain and Language*, 280, 105803.

(Second Author)

Manuscripts Under Review:

Pell, M.D., Song, Q., Jiang, X. Neurocognitive mechanisms of epistemic vigilance. *Cognitive Psychology*.

(Under Review, Second Author)

Book Chapters:

Song, Q. (In Press). Bayesian Analysis (Chapter 7). In Jiang, X. (Ed.), *Research and Application of Data Processing Methods in Speech and Voice Cognition*. Shanghai Foreign Language Education Press.

RESEARCH EXPERIENCE:

National Natural Science Foundation of China (NSFC) Project | Graduate Researcher

- Assisted Prof. Xiaoming Jiang in investigating the neural mechanisms of voice processing.
- Responsible for experimental design, EEG data collection, and advanced statistical analysis.

SISU Supervisor-led Innovation Project | Project Lead (Sub-project)

- Conducted eye-tracking experiments to explore the cognitive processing of prosody and syntax.
- Managed the full pipeline of eye-movement data processing and visualization.

CONFERENCE PRESENTATIONS:

Presenter, *24th Warwick International Conference in Applied Linguistics (WICAL)*, University of Warwick, UK (2022). Presented on the Chinese translator corpus.

AWARDS & HONORS

- Graduate Academic Scholarship (First Class), SISU | 2023 – 2025
- Outstanding Undergraduate Thesis of Beijing, Beijing Municipal Education Commission | 2023
- Outstanding Graduate of Beijing, Beijing Municipal Government | 2023
- University-level Academic Scholarship, BFSU | 2019 – 2023 (Consecutive years)

SKILLS & CERTIFICATIONS

Languages:

- English
 - TEM-8 (Test for English Majors - Band 8) - Excellent;
 - Professional fluency in academic writing and speaking.
- Japanese
 - Conversational proficiency

Technical Skills:

- **Neuroscience & Experimental Tools**

EEG: Proficient in MNE-Python and EEGLAB for preprocessing and advanced source/sensor-level and time-frequency analysis.

Eye-tracking: Experienced in EyeLink system setup and data analysis.

Representation Analysis: Skilled in Representational Similarity Analysis (RSA) to disentangle neural representations of acoustic and cognitive dimensions.

Experimental Design: Proficient in designing and implementing complex behavioral and neuroscientific experiments using PsychoPy (Python-based), E-Prime, and jsPsych (JavaScript-based for online research).

- **Data Analysis and Programming**

Proficient in **Python**, **R**, and **MATLAB**.

- **Statistical & Computational Modeling**

Statistical Modeling: Proficient-level application of GLMM, Generalized Additive Mixed Models (GAMM), Bayesian Analysis, and Cluster-based Permutation Testing.

Machine Learning & Deep Learning: Proficient in using Scikit-Learn for feature extraction, predictive modeling, and data classification.

- **Acoustic Analysis**

Advanced ability to perform **acoustic feature extraction** (e.g., F0, Intensity, Duration, Formants) and **spectral analysis** using a combination of Python, Praat, and Audacity.
